Mara Bush Camp & Private Wing!

We have achieved so much this year!

ECO-WARRIOR AWARD - 2019

Our special little camps have received the Eco Warrior Award for reduction & elimination of Single Use Plastic !

CONSTRUCTION OF NEW WETLAND

We constructed another wetland, far superior to the previous ones and are able to utilize the filtered grey water for our laundry and car wash!

TREE PLANTING

We have planted 500 trees in and around the camp in the last one year. We have made this activity a priority and will continue with it.

This is the 5th wetland we have created and the most eco-friendly way to filter grey water.

MARA BUSH CAMP PRIVATE WING

We will be up-grading our guest tent floors in the River Tents by mid June next year using sustainable wood only. A new welcome area is planned as well as beautiful small platform overlooking the river with hippos and crocodile splashing below!

STAFF GYM

We have introduced a lovely gym for our team members so they can get physical exercises in their routine and take time to get fit!

Guests are welcome to use it too!

ORGANIC VEGETABLE GARDEN & RAIN WATER HARVESTING

Our beautiful little garden is growing passion fruit, 10 different types of herbs, spinach, salad, sukuma wiki, beetroot, carrots and much more soon. We still harvest

WATER FILTRATION SYSTEM:

We have invested heavily in a water filtration system ! All water used for cooking / washing salads / brushing teeth etc. is filtered through a Finnish Water system !

rain water from our staff housing and utilize it to water the garden in the dry season. We had some invasion of hippo and elephant who enjoyed our salad and Sukuma wiki! But, we all live in harmony and our garden was restored in no time!

We continue to offer our stainless steel bottles to our guests on arrival at camp !
